

Material Specification

Stainless Steel Splash Plates

1.01 Construction

Hadrian's splash plates are constructed of type 304, #4 brushed finish stainless steel. Splash plates are available in the following sizes:

24" x 30" / 610mm x 762mm

24" x 36" / 610mm x 914mm

36" x 30" / 914mm x 762mm

36" x 36" / 914mm x 914mm

1.02 Maintenance

The best method of maintaining your stainless steel splash plates is frequent regular cleaning. Surfaces should be cleaned with a mild detergent or ammonia solution, rinsed with clear water (preferably warm/hot) and wiped dry. Never attempt to clean stainless steel with a steelwool cleaning pad, wire brush, or cleaning agents containing harsh abrasives.

If dirt build-up must be removed, use a metal cleaner specifically recommended for stainless steel. Deposits which require scouring may be removed with a mild abrasive powder such as the household cleaner, Ajax. Grease, oil and/or fingerprints may be removed with detergent and water, plus a solvent (i.e. acetone, kerosene, mineral spirits, etc.). Be sure to rub in the direction of the grain of the metal.

It is important to rinse stainless steel with clear water and wipe the surfaces with a soft cloth after cleaning to remove all traces of the cleaning agent. Again, rubbing and wiping should be done in the direction of the polished lines, not against them.

For any other assistance in maintaining the "bright look" of stainless steel splash plates, please call your local Hadrian representative.
