Powder Coated

TOILET PARTITIONS

Low Cost and High Performance – The Best Industry Value

FAST, RELIABLE LEAD TIMES

With lightning fast lead times, Hadrian's powder coated toilet partitions are available to meet any deadline. Fast, on time deliveries and 98% damage-free shipments ensure that your toilet partitions are there when you need them.

ENVIRONMENTALLY FRIENDLY

Hadrian's powder coated toilet partitions have an excellent **recycled content of 50% (36% post-consumer and 14% pre-consumer)**, making them a great choice for environmentally sensitive projects.

Hadrian is proud of the fact that its powder coating system is environmentally friendly. There is virtually no waste, energy consumption is low, and there are no solvent emissions.

INDUSTRY-BEST FIRE RESISTANCE

Hadrian's powder coated toilet partitions are completely fireproof and will not give off toxic smoke if exposed to heat or flame. With a CLASS A fire rating, no other product performs better.

DURABLE AND REPAIRABLE

Unlike other materials, powder coated toilet partitions can be successfully repaired should vandalism occur.

Styles

HEADRAIL BRACED

Headrail braced compartments are a great choice for virtually any facility. These units are especially recommended in heavy-use areas such as schools, institutions and industrial settings. The anti-grip top rail deters boisterous activity while ensuring a rigid and secure installation.

CEILING HUNG

Ceiling hung units present a clean, contemporary appearance. They permit quick, easy floor maintenance, especially when combined with wall-hung fixtures. Ceiling hung partitions are recommended for modernization where a drop ceiling or open span construction can be used.

FLOOR MOUNTED

The clean lines of floor mounted units lend an air of spaciousness to these installations. The absence of top structure makes them the ideal choice for high ceiling areas and allows a wide range of complementary architectural and interior decoration possibilities.

FLOOR TO CEILING

Floor to ceiling units are extremely strong and resistant to abuse as they are securely connected to the floor, ceiling and walls. This configuration is ideal for high abuse areas and installations that require extra durability.

STANDARD SERIES

Hadrian's standard series features 58" (1473mm) high doors and panels, which are mounted 12" (305mm) off the finished floor.

Available in headrail braced, ceiling hung, floor mounted and floor to ceiling styles.

ELITE SERIES

Hadrian's Elite Series offers increased privacy with 64" (1626mm) high doors and panels, mounted just 6" (152mm) or 9" (229mm) from the finished floor. Continuous channels eliminate all sightline gaps.

Available in headrail braced, ceiling hung, floor mounted and floor to ceiling styles.

ELITE PLUS SYSTEM

Taking the Elite concept a step further, Hadrian's Elite Plus System affords maximum privacy with 72" (1829mm) high doors and panels, mounted just 6" (152mm) or 9" (229mm) from the finished floor. Continuous channels eliminate all sightline gaps.

Available in headrail braced, ceiling hung and floor to ceiling styles.

ELITE MAX SYSTEM

Elite Max offers maximum privacy with up to 92" (2337mm) high doors and panels – available in 1" (25mm) increments between 73" (1854mm) and 92" (2337mm), and mounted 4" (102mm), 6" (152mm) or 9" (229mm) from the floor. Indicator latches come standard and optional pedestal mounting is available for easy cleaning and an upscale appearance. Continuous channels eliminate all sightline gaps.

SCREENS

WALL MOUNTED

This simple and economical design features a 48" (1219mm) high screen that meets IPC requirements and permits easy maintenance and floor cleaning.

FLOOR MOUNTED

Features a 58" (1473mm) high screen and floor mounted pilaster for extra support.

Powder Coated Tough!

Hadrian utilizes the latest powder coating technology to apply a hard, even and run-free finish. After a thorough cleaning and phosphatizing process, electrical charges ensure that the powder paint adheres uniformly over the entire product surface. The powder is then oven cured to create an attractive, permanent and consistent finish that covers every area of the product and resists impact, abrasions, chemicals, detergents and acids.

Thicker paint application helps to combat rust. Powder coating allows a greater paint thickness to be applied without compromising surface uniformity. Wet paints simply cannot achieve the same thickness without the threat of unsightly runs and surface irregularities.

The flexibility of powder coating allows Hadrian to offer a wide range of exciting finishes, including special effects, anti-graffiti and custom colors.

ANTI-GRAFFITI

Hadrian's anti-graffiti toilet partitions allow the use of commercial graffiti removers to completely eliminate graffiti without causing damage to the finish. The powder coating retains its original brilliance and no ghost of the graffiti is left behind!

Proven ASTM D6578 Graffiti Resistance

- Permanent Marker
- Lipstick
- Water Based Ink Marker
- Wax Crayon
- Spray Paint

Features

FULL HONEYCOMB CORE

Doors, panels and pilasters are structurally reinforced with 1" (25.4mm) cell honeycomb bonded from top to bottom and edge to edge throughout their entire core. The honeycomb reinforcement enhances strength, sound absorption, and overall impact resistance.

CLEAN, ATTRACTIVE CORNERS – MITRED, WELDED AND GROUND SMOOTH

Hadrian's "trademark" corners are unmatched for their clean, attractive appearance. The superior strength of Hadrian's full corner weld offers a hygienic seal and prevents parts from loosening and detaching.

BARRIER-FREE LEVER LATCH

Hadrian's exclusive thumbturn lever conforms to American Disability Act and Canadian barrier-free requirements. It can be activated with a short, easy movement and without finger-grip application.

SAFETY RELEASE LATCH

Both standard and barrier-free latch designs allow access from the exterior in case of emergency. The design is minimal for appearance, easy cleaning, and resistance to vandalism. The "Hadrian" name assists maintenance staff in locating the source for replacement parts.

METAL HINGE PIN WITH NYLON SLEEVE

The metal core of Hadrian's upper hinge pin provides sturdy support while the self-lubricating nylon sleeve ensures smooth, quiet operation. The threaded pin can be easily removed and reinserted if necessary.

REINFORCED HEADRAIL BRACED PILASTER TOPS

An added 20-gauge channel creates extra strength and twist-free rigidity to minimize the possibility of damage by handling and shipping.

ANTI-GRIP TOP RAIL

Extruded aluminum headrail offers maximum strength, rigidity, and a clean line appearance. Its double-ridge anti-grip design deters boisterous activity and consequent damage, while still offering a smooth track for shower curtain hooks.

LOCKING BAR EDGE MOULDING

All components are tack welded and interlocked under tension with a roll-formed oval crown locking bar for continuous bonding and a permanent, hygienic seal.

CONCEALED HINGE MOUNTING

Hinges are concealed within the thickness of the door, top and bottom, for sanitary, easy maintenance and modern styling. This sleek design eliminates the need for exposed fasteners on the door face.

HIGH QUALITY HARDWARE

All brackets and door hardware components are zinc die-cast and triple plated with copper, nickel and chrome to a gleaming finish. Pilaster shoes are a one-piece welded stainless steel design.

OPTIONS

THE NO-SIGHTLINE SOLUTION

Maximizing privacy, Hadrian's No-Sightline Solution features a full height continuous stop and hinge side filler to completely eliminate all sightline gaps around the door. The full-length rubber bumper on the stop deadens sound and protects against wear. The versatility of the No-Sightline Solution means it can be used in new and pre-existing installations. Substitute the heavy-duty continuous hinge on the hinge side for added strength without compromising privacy.

HEAVY-DUTY CONTINUOUS HINGE

Hadrian's economically priced continuous hinge is ideal for high-abuse areas where extra strength and durability are a concern. Made with heavy-duty material, the continuous hinge is available in a brushed stainless steel finish with a stainless steel hinge pin. As added value, Hadrian's continuous hinge obstructs the sightline on the hinge side of the door.

STAINLESS STEEL HARDWARE PACKAGE

A stainless steel hardware package is available, featuring:

- Stamped stainless steel, #4 brushed pilaster, panel and screen brackets
- Cast stainless steel, #4 brushed wrap-around door hinges
- Stainless steel, #4 brushed TR-27 6-lobe security screws
- Stainless steel, #4 brushed pilaster shoes

hadrian®

Hadrian prides itself on being a professional and friendly company that is easy to deal with. We make it a priority to spend time getting to know our customers and work with them to meet the challenges of their specific market. Our local representatives ensure Architect, Interior Designer, Specification Writer, Government Planner, School Official and End-User sales coverage while also expeditiously addressing field support needs and jobsite concerns.
