BEAUTIFUL AND LONG LASTING

## A NATURAL CHOICE FOR ENVIRONMENTALLY SENSITIVE PROJECTS

Made from minerals of the earth, stainless steel is natural. It is non-toxic and 100% recyclable.

Hadrian's stainless steel toilet partitions have an outstanding recycled content of 91% (76% post-consumer and 15% pre-consumer), making them an excellent choice for LEED and other environmentally sensitive projects. Stainless steel allows you to "build green" without compromising on appearance or performance.

## INDUSTRY-BEST FIRE RESISTANCE

Hadrian's stainless steel toilet partitions are completely fireproof and will not give off toxic smoke if exposed to heat or flame. Fire resistance is a critical requirement of most building codes and no other product performs better.

## COST EFFECTIVE

Less expensive than composite and phenolic type toilet partitions, stainless steel is a very cost effective option. Stainless steel achieves an upscale look and outstanding performance at an affordable price point.
