hadrian®

ANTIMICROBIAL PROTECTION • HIGH RECYCLED CONTENT • ENABLE PHYSICAL DISTANCING
BEST FIRE RESISTANCE • FAST DELIVERY • DURABLE AND LONG LASTING • MAXIMUM PRIVACY

Metal Toilet Partitions

ALWAYS RELIABLE, ALWAYS AFFORDABLE

ANTIMICROBIAL PROTECTION

- Antimicrobial finish available as a custom option.
- Powder coating contains an antimicrobial agent that reduces bacteria.

HIGH RECYCLED CONTENT

- Great choice for LEED and other environmentally sensitive projects.
- Stainless steel partitions contain 91% recycled content (76% post-consumer / 15% pre-consumer).
- Powder coated partitions contain 50% recycled content (36% post-consumer / 14% pre-consumer) and no solvent emissions.

ENABLE PHYSICAL DISTANCING

- Lightweight material: only one installer required.
- Reduce the number of people needed on construction sites.

BEST FIRE RESISTANCE

- Metal offers industry-best fire resistance.
- Does not support flame spread.

READILY AVAILABLE, FAST DELIVERY

- Most commonly stocked product by distributors.
- Available everywhere across North America.
- Light weight material contributes to lower freight costs.

DURABLE

- Restroom design will need to be changed before you need to replace the partitions.
- Simple to repair and touch up.
- Parts can be easily replaced.

ENHANCED PRIVACY

- All sightline gaps can be eliminated.
- Extended panels provide greater coverage.
